TO: Subscribers to UL's Component Recognition Service for:  
Component Plastics - QMFZ2, 3, 8, 9 and  
Component Plastics, Proprietary - QMTR2, 8

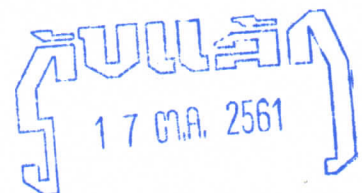

SUBJECT: Standardized Appendix Pages (SAP) for:  
Component Plastics - QMFZ2, 3, 8, 9 and  
Component Plastics, Proprietary - QMTR2, 8

UL has developed a new version of Standardized Appendix Pages (SAP) for the subject product category.

The new SAP includes the following significant revisions compared to the SAP currently reference in your file:

1. Appendix A has been revised to:
  - a. Clarify the expectations of the Field Engineer's visits to manufacturing locations.
  - b. Add information pertaining to Unlisted Components.
2. Appendix B has been revised to:
  - a. Eliminate reference to the hard-copy sample tag.
  - b. Add information regarding the sample eTag and associated Field Engineer eTag database.
  - c. Clarify details associated with sample selection requirements.
3. Appendix C has been revised to include:
  - a. Clarification of the Differential Scanning Calorimetry "Basis For Acceptability" section.
  - b. Updates to the Restricted Substance Testing "Method" and "Basis For Acceptability" Sections to include the new phthalate substance restrictions in the revised UL 746R for those materials with the optional RoHS Compliance rating.
  - c. Updates to the Microscale Combustion Calorimetry (MCC) "Basis for Acceptability" sections to include tolerance, comparison criteria.
4. Appendix D has been revised to:
  - a. Provide a complete overview of the FUS sample testing process including timeline expectations.
  - b. Guidelines for the procedure to follow in the event of nonconformance including timeline expectations.

Subject 746

August 31, 2018

A complete copy of the new SAP pages incorporating the changes outlined in this bulletin will be issued separately within four months from the date of this bulletin. Manufacturers should retain and continue using their existing SAP until the new SAP dated 2018-08-31 are received.

Any questions concerning the above can be directed to Prasad Shankarappa. Thank you for our continued cooperation in supporting UL's Follow-Up Services Program.

This new SAP is effective upon receipt. Please replace the existing SAP with the new document.

Your Field Engineer can assist you with any questions regarding the filing of the SAP in your Procedure.

Very truly yours,
