Address		Address	

The supplier guarantees the replies provided in the enclosed questionnaire are a true, complete and accurate record of the information requested. If the legislation for which compliance is given in this document will be modified or amended, the supplier needs to inform J&J immediately in case the herein given compliance certifications are affected. The supplier will immediately inform J&J of any modification in the material supplied. This information will only be used for safety and regulatory purposes. J&J will not disclose any confidential information to any third party outside J&J without written permission of the supplier except for authority inspections. The requesting J&J company is mentioned above.

Signature and Title of Supplier Representative

Date

Helpful Information:

This questionnaire has been established in order to assess raw material compliance with global legislation and J&J internal standards (safety, regulatory & technical data). Completion of this questionnaire will enable the raw material to be considered for use in products developed for sale worldwide.

Please fill in the form completely. You may indicate where you believe the information is not applicable by giving the reason for that conclusion. Submit the questionnaire electronically or scan/e-mail or mail to the Product Development contact identified in the header.
